XVI Int. Conference of Technology, Learning and Teaching of Electronics (TAEE24)

ASOCIACIÓN TECNOLOGÍA, APRENDIZAJE Y ENSEÑANZA DE LA ELECTRÓNICA

Málaga, from June 26 to 28, 2024

E.T.S.I de Telecomunicación y E.T.S.I Informática
Universidad de Málaga

UNIVERSIDAD DE MÁLAGA | uma.es

50 ANIVERSARIO

Presentation

Since 1994, biennially and regularly, the TAEE Congress has been the meeting place for electronics professionals from the fields of Industrial Technology and Information and Communication Technologies from Spain, Portugal and Latin America.

During these years, it has become a space for reflection, creation, dissemination of teaching resources (mainly technologically based) and for the promotion and cooperative generation of knowledge, with the aim of improving the teaching practice of electronics.

Announcement

The TAEE Association and the local committee of Conference TAEE24 cordially invite you to submit papers for consideration in some of the following fields of Electronics, within the framework of Industrial Technology, and Information and Communication Technologies:

❑ Fundamentals of Electronics

❑ Analog electronics, digital electronics, power electronics

❑ Digital systems

❑ Microcontrollers and microprocessors

❑ Electronic instrumentation

❑ Device technology

❑ Control systems

❑ Signal proccesing

❑ Communication system

❑ Telecommunication electronics

❑ Applications (e.g., biomedical engineering, robotics, domotics, drons, electric vehicle)

❑ Teaching experiences

❑ Company internships

❑ University-company collaboration

❑ Other fields in electronics
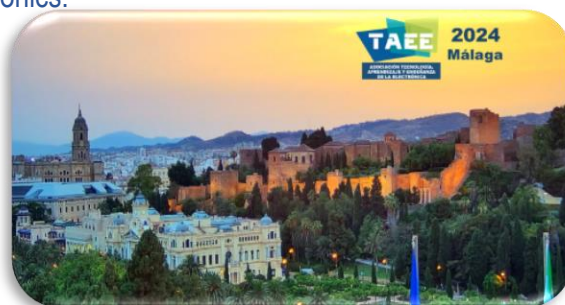

The papers presented will be oriented to:

❖ The different training processes (programming, teaching, learning and evaluation) both at the subject and curricular level (profesional orientation, integration, flexibility, etc.).

❖ Research projects linked with the training of students.

❖ Educational policies of interest to electronics.

❖ Teaching innovation based on the application of technologies.

❖ Analysis of training and its adaptation to the student labor market.

Presentation modalities

Oral communication, demostrations and poster

Although the conference is face-to-face, a percentage of communications for synchronous remote presentation will also be accepted.

Publication

Accepted works will be published in:

- **Abstract book** in Spanish, Portuguese or English with ISBN

- **Proceedings book** in Spanish, Portuguese or English with ISBN

- Open publication in the **digital repositories of the TAEE Association** (respecting the copyright with IEEE Xplore)

- Authors who so choose may submit their work in English for publication in **IEEE Xplore**

- A selection of the best articles will be made to be proposed in an extended version for publication in **IEEE Transactions on Education and IEEE-RITA**

Awards

From TAEE Association the following prizes Will be awarded:

- Best **oral communication** award.
- Best **demonstrator** award.
- Best poster award.
- Best **doctoral work** award.
- Also: **Tomás Pollán** & **Professional Career** awards.

Important dates (updated)

✓ Abstract submission: **26/01/2024**

✓ Notification of acceptance: (summaries):   **16/02/2024**

✓ Complete Works submission for revision: **21/03/2024**

✓ Notification of acceptance: **26/04/2024**

✓ Sending final version of the articles: **17/05/2024**

Furthermore, during the congress, guest lectures, work meetings, round tables for reflection and social events for socialization and entertainment will be organized.

Go ahead and participate!

Come to Málaga,

share your experiences, learn and enjoy Costa del Sol!
